About

MSc. Cyber Security student at SRH University Leipzig with hands-on experience as a SOC Analyst and DevSecOps Engineer. Skilled in building AI-powered security tools, analyzing threats using SIEM/SOAR platforms, and developing full-stack applications. Actively seeking part-time opportunities in cybersecurity or software development.

Education

MSc. Cyber Security

SRH University Leipzig

Oct 2025 – Present

📍 Leipzig, Germany

- Pursuing advanced studies in network security, threat analysis, and secure software development.
- EQF Level 7

B.Tech Computer Science & Engineering

GSFC University

Sep 2021 – May 2025

📍 Vadodara, India

- Specialized in Python, Java, R, C/C++, mobile app development, and AI/ML projects.
- Overall CGPA: **7.4 / 10**

Higher Secondary School (Science)

Phoenix School

Jun 2020 – Mar 2021

📍 Vadodara, India

- Science stream with Mathematics. Final Grade: **85%**

Work Experience

DevSecOps Engineer Intern

Sannibh Technologies (Startup)

Dec 2024 – Jan 2025

📍 Vadodara, India

- Worked on a real-world banking system project, integrating security at every stage of the development lifecycle.
- Performed vulnerability scanning and code analysis using **OWASP ZAP** to identify and report security flaws.
- Guided developers on secure coding practices — detecting hardcoded credentials, enforcing encryption standards, and eliminating common OWASP Top 10 vulnerabilities.
- Implemented data encryption measures within the banking application to protect sensitive user information.
- Awarded a certificate of completion by the company upon successful internship completion.

SOC Analyst Intern

Allianz i

Feb 2025 – Apr 2025

📍 Vadodara, India

- Monitored and analyzed client device logs using **Wazuh** (open-source SIEM) to detect suspicious activities.
- Drafted detailed incident reports in **IRIS** and escalated findings to senior analysts.
- Automated threat detection and incident response workflows using **Shuffle** (SOAR platform).
- Identified and reported malicious IPs; coordinated IP blocking and client notifications.

Assistant Professor

Kanan.co

Jun 2025 – Sep 2025

📍 Vadodara, India

- Delivered independent lectures and supported students with academic content in faculty's absence.
- Maintained student attendance records and provided academic support.

Projects

NetProbe — Port Scanner | *React • FastAPI • Python-nmap • Docker • Hugging Face*

📄 GitHub 🚀 Live

- Built a full-stack network security tool that scans open ports on any target IP or domain.
- Implemented risk assessment engine that scores each open port and generates a risk rating (0–100).
- Added PDF report generation with findings and recommendations using ReportLab.
- Containerized backend with Docker and deployed on Hugging Face Spaces; frontend on Netlify.

PhishGuard — Phishing URL Detector | *React • Flask • Vite • Machine Learning • NLP*

📄 GitHub 🚀 Live

- Developed an ML-powered tool that classifies URLs as safe or malicious in real time.
- Trained an NLP-based model that extracts URL features and predicts phishing attempts with high accuracy.
- Built React + Vite frontend with Flask backend; deployed on Vercel.

Skills

Languages	Python, Java, C, C++, R, JavaScript
Frameworks	FastAPI, Flask, Django, React, Vite
Security Tools	Wazuh, IRIS, Shuffle, SIEM, SOAR, Nmap, Metasploit
DevSecOps	Docker, Git, GitHub Actions, Jira, Linux
Concepts	Incident Response, Threat Analysis, Network Security, DevSecOps, NLP/AI
Office	Microsoft Office, Excel, Word

Languages

Gujarati	Native	English	Proficient (C2 Listening / C1 Reading & Writing)
Hindi	Proficient (C1)	German	Beginner (A2)

Additional Info

- **Work Permit:** Germany **Nationality:** Indian **Passport:** U6650216
- **Availability:** Open to part-time work (student job / Werkstudent)
- **Portfolio:** manches3003portfolio.netlify.app
