ABOUT MYSELF

I am currently pursuing masters in cyber security from SRH Leipzig campus. I have done multiple projects in the Software and AI development field like Smart Resume analyzer using NLP and also have a hands on experience working as a DevSecOps Engineer and also as a SOC analyst. I am currently looking for the part time job to manage my student expenses and wanted to be a good asset for the company. I am really good in communication skills and can also work in a team.

EDUCATION & TRAINING

SRH University Leipzig [13/10/2025 - Current]

City: Leipzig | **Country:** Germany

Level in EQF: 7

WORK EXPERIENCE

Allianz i - India, vadodara

SOC analyst Intern

[02/02/2025 - 02/04/2025]

I have done internship as a SOC analyst for 3 months in allianz i and learned how a soc analyst works in a company, where the main software that we worked was on wazuh, iris and shuffle. Wazuh is an open source software to analyze and monitor the client devices logs and if something suspicious is being found then, we

have to make a report in iris, which is popular for making incident report and giving access to the higher ups and if the IP is genuinely illegal then they may block the ip and report it to the client. Whereas, shuffle is an open source orchestration automation platform (wazuh + iris), it can find the illicit activities and make a report on its own and even can do the necessary measures.

kanan.co - India, Vadodara

Assistant professor

[09/06/2025 - 11/09/2025]

I worked as an Assistant professor in Kanan.co, my work was to mark the attendance of the students in the class, and sometimes i also had to take lectures in the absence of the main professor.
